

# Spotify

Alex Arnold, Scott Frazier, Samantha Lane, Jenette Smith

# Inspiration

- Year of End Wrap Ups
- Spotify API
- Example visualizations from tableau
  - Map of World
  - Most songs streamed
- COVID-19 impacts on music

# AGENDA

SPOTIFY

- Hypotheses
- Data
- Audio Features
- Demo
- Conclusions
- Limitations & Future Work

# Hypotheses

## Hypothesis 1:

The United States has the highest streams out of country.

## Hypothesis 2:

Audio features, such as speechiness and danceability have increased over time.

## 01 Kaggle

- Spotify Dataset 1921-2020, 160k+ Tracks
- <https://www.kaggle.com/yamaerenay/spotify-dataset-19212020-160k-tracks>

## 02 Streams of 2020 CSV

## 03 Streams of 2017 (Tableau)

- Add Tableau Link

## 04 Census CSV

- Country Data

# Audio Features

- **Acousticness**- whether or not track is acoustic. 1- high confidence acoustic
- **Danceability**- how suitable a track is for dancing based on combo of tempo, rhythm stability, beat strength, and overall regularity. 1- most danceable
- **Duration\_ms**- length of track in milliseconds
- **Energy**- perceptual measure of intensity and activity
- **Instrumentalness**- predicts whether a track contains vocals
- **Key**-
- **Liveness**- detects the presence of an audience in the recording
- **Loudness**- overall loudness of a track in decibels (dB)
- **Mode**-
- **Speechiness**- detects presence of spoken words in a track
- **Tempo**- estimated tempo of track in beats per minutes
- **Valence**- describes musical positiveness conveyed by a track

# Conclusions

## Hypothesis 1:

Accept the alternative hypothesis.

The United States streams the most music.

## Hypothesis 2:

Fail to reject the null hypothesis.

Speechiness has not increased over time while danceability has increased over time.

# Limitations & Future Work

## 01 Limitations

- Utilizing more up-to-date data (ex. 2007 Streaming Data)
- Vast genre categories difficult to group genre data to investigate further
- D3 knowledge
- Time

## 02 Future Work

- Using Spotify API for Top Streams 2020 Data
- Utilizing GeoJSON to create MapBox map
- Comparing audio features and genres
